

This is **MY** pizza shop.

There are others like it, but this one is **MINE**.

ONLINE ORDERING

- A customer can pick the size of their pizza, and they can choose the combination of toppings they want.
- A customer can place an order, but only if it first contains at least one pizza.
- A customer can choose to have their pizza delivered, or they can pick it up at the store.
- Our pizza shop accepts payment online via credit card.

IN THE STORE

- Cooks prepare pizzas.
- Cooks bake pizzas.
- Assemblers will remove pizzas from the oven, cut and box the pizzas, and assemble the orders into stacks.
- Cashiers will handle pickup orders, and can accept payment at the store.
- Drivers are issued “road tills” which must be reconciled at the end of their shift.
- Drivers can select orders to add to their upcoming routes.

ON THE ROAD

- The driver follows the route.
- The driver delivers pizzas.
- The driver can also accept payment and issue change from their road till.
